1. The Maschinen- und Apparatebau Schkeuditz is producing training material kits for the Soviet Air Force. One kit includes:

- a. Fog wind tunnel
- b. Wind producer
- c. Two-component scale
- d. Air flow shapes
- e. Bernoulli instrument
- f. Four-phase motor
- g. Instrument for measuring propeller thrust
- h. Turbine M-1 Beyrische Motoren Werke
- " M-2 JUMO
- " M-3 Patterned after General Electric
- " M-4 " Derwent
- " M-5 " Walter

2. To date, 650 sets have been produced. There is an order on hand for 800 more. The kits are being sent to all SAA schools in the USSR and satellite countries.

Field Comment: The above supplements a report from the same source, dated 14 January 1949, which consisted of an official Soviet memorandum relating the shipment of thirteen such kits to Austria.

This document is hereby regraded to
